

Flexible Operation of Hydropower Plants

Publications, Reports, and Presentations

EPRI, *The Flexibility Framework Model: A Tool for Evaluating Hydroelectric Power Plants' Potential for Flexibility Services*, Palo Alto, California: Electric Power Research Institute, November 2023.

Kuljevan, F., A. Camlibel, M. Christian, R. Entriken, P. March, J. True and P. Wolff, "The Hydropower Flexibility Framework Tool: A Water-based Approach for Quantifying Hydropower Flexibility," *IAHR Hydrolink Magazine*, 2023 (see <https://www.iahr.org/library/infor?pid=28044>).

Wolff, P., P. March, and F. Kuljevan, "The Flexibility Framework Model: A Tool for Evaluating Hydroelectric Power Plants' Potential for Flexibility Services," *Proceedings of HydroVision International 2022*, Tulsa, Oklahoma: Clarion Energy, July 2022.

March, P., and P. Wolff, *Modeling Conventional Hydropower Plants to Duplicate Pumped Storage Hydro Operation*, Palo Alto, California: Electric Power Research Institute, Report No. 3002019160, December 2020.

March, P., and P. Wolff, *Operation Support Tool for Ontario Power Generation's Sir Adam Beck Project*, Palo Alto, California: Electric Power Research Institute, Report No. 3002019413, April 2020.

March, P., W. Moore, and M. Nesbitt, "Flexible Operation of Hydroelectric Turbines and Generators," *Proceedings of HydroVision International 2018*, Tulsa, Oklahoma: PennWell Corporation, June 2018.

March, P., *Flexible Operation of Hydropower Plants*, Palo Alto, California: Electric Power Research Institute, Report No. 3002011185, May 2017.

March, P. A., P. Wolff, and P. Jacobson, "Effects of Markets and Operations on the Suboptimization of Pumped Storage and Conventional Hydroelectric Plants," *Proceedings of HydroVision International 2013*, Tulsa, Oklahoma: PennWell Corporation, July 2013.

Key, T., L. Rogers, P. March, H. Battey, and R. Dham, "Valuing Hydropower Grid Services in the Future Electricity Grid," *Hydro Review*, April 2013.

March, P., *Effects of Markets and Operations on the Suboptimization of Pumped Storage and Conventional Hydroelectric Plants*, Palo Alto, California: Electric Power Research Institute, Report No. 1023782, December 2012.

March, P., *Results from Case Studies of Conventional Hydroelectric Plants: Quantifying the Value of Hydropower in the Electric Grid*, Palo Alto, California: Electric Power Research Institute, Report No. 1023143, August 2012.

March, P., *Results from Case Studies of Pumped-Storage Plants: Quantifying the Value of Hydropower in the Electric Grid*, Palo Alto, California: Electric Power Research Institute, Report No. 1023142, August 2012.

March, P., P. Wolff, and T. Key, "Effects of Electricity Markets on Suboptimization of Pumped-Storage Hydroelectric Plants," *Proceedings of HydroVision International 2012*, Tulsa, Oklahoma: PennWell Corporation, July 2012.

March, P. A., P. M. Thompson, and P. J. Wolff, "Effects of the MISO Ancillary Services Market on Hydroplant Suboptimization," *Proceedings of HydroVision International 2010*, Tulsa, Oklahoma: PennWell Corporation, July 2010.

March, P. A., "Evaluation of Overall Plant Optimization under the MISO Ancillary Services Market," Report No. 0901, Nashville, Tennessee: Hydro Performance Processes Inc., January 2009.
